

# Welcome to the family.

# Score. Author. Upgrade.

Final Cut Express is just the first step in making professional-quality videos. Add an extra dimension to your video by using Soundtrack to quickly create music even if you don't have any musical experience. Then create Hollywood-style DVDs with DVD Studio Pro. When you're ready to hit the big time, upgrade to Final Cut Pro.

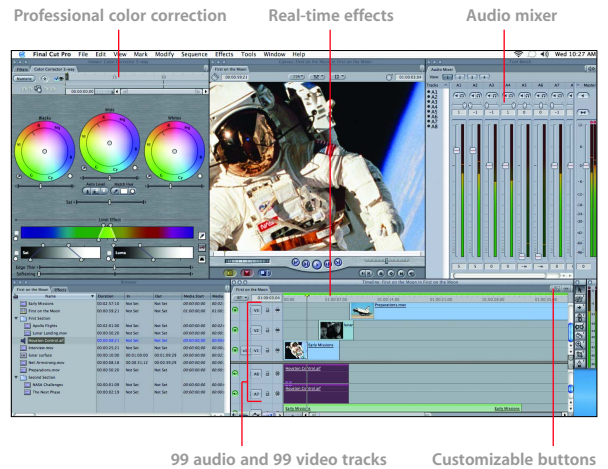

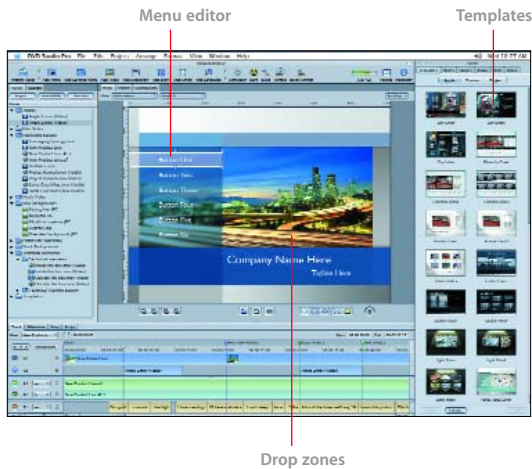

## Soundtrack

Give your video a perfect score.

Soundtrack makes it easy to produce original music for your Final Cut Express videos. Use the drag-and-drop interface to combine any of the thousands of included professionally recorded instrument loops and sound effects to create perfectly matched music. Then add your music to videos, DVDs, websites, presentations, or your own recording projects.

- Choose from over 4000 royalty-free instrument loops and sound effects to use as music building blocks.
- Search for loops by instrument, genre, or mood.
- Automatically match music loops by key and tempo in real time.
- Synchronize music with your video.
- Record your own voiceover or instrument loops.
- Use more than 30 professional audio effects from Apple and Emagic, including reverbs, EQs, and delays.

## DVD Studio Pro 2 Turn your videos into dazzling DVDs.

DVD Studio Pro 2 is the ideal way to turn your Final Cut Express videos into DVDs. It combines an accessible interface with unprecedented creative control. The high-quality MPEG-2 encoder allows you to maximize the amount of video on a DVD without compromising quality. With DVD Studio Pro 2, you can create a DVD in minutes, or a masterpiece in a few minutes more.

- Apple-designed templates help you create beautiful DVDs quickly.
- High-quality MPEG-2 encoding lets you put more than 90 minutes of great-looking video on one DVD.
- You can start in Basic mode for iDVD-like simplicity, then switch to other configurations for more advanced options.
- Integrated menu design allows you to create DVD menus entirely within DVD Studio Pro.
- Advanced features such as subtitles, scripting, and multiple video angles and audio streams let you create Hollywood-style DVDs.

## Final Cut Pro 4 Upgrade to professional editing.

Final Cut Pro 4 will help take your video to the next level whatever the format: DV, SD, HD, or even film. Included in Final Cut Pro are LiveType for broadcast-quality, full-motion titles; Compressor for automated media encoding; and Soundtrack for creating professional-sounding scores. Additional functionality and the ability to customize the keyboard, buttons, Timeline, and Browser make for a fast, professional editing environment.

- Use LiveType to produce full-motion titles using animated fonts and over 8GB of royalty-free animated textures and objects.
- Compose with Soundtrack to create professional-sounding scores for your video.
- Utilize Compressor to encode the highest-quality MPEG video for DVD authoring.
- Edit, mix, and add effects to your audio using the multitrack audio mixer, automated faders, and real-time audio filters.
- Play back real-time effects at full resolution on your camcorder screen or NTSC monitor.
- Open Final Cut Express projects and manage your media with comprehensive media management tools and batch capture capabilities.
